

Small Enterprise Research (SER) aims to inform scholars, educators, policy makers and practitioners. The journal values contributions which lead to improved practice in managing small and entrepreneurial organisations.

SER will publish original research which incorporates and extends relevant theory on the basis of appropriate data, evidence and analysis.

SER will feature theoretical and empirical papers, case studies, literature reviews, book reviews and research notes.

CALL FOR PAPERS

You are invited to submit original papers on small enterprise sector research including:

- Managing new business start ups, growth and succession
- Entrepreneurial firms, family business and home-based enterprises
- Strategy, governance and leadership in SMEs
- Resource utilisation and sustainability
- Ethnic, indigenous and comparative studies
- Small business in emerging and developed economies
