

**Professor Julian Teicher**  
**RMIT University Vietnam**

I have worked as a member of the ANZAM Executive for more than a decade, and during that time I have worked in roles including as Head of the Department of Management and Director of the Graduate School of Business at Monash University. Most recently, I have led the development of the Business Faculty (Centre of Commerce and Management) at RMIT University Vietnam.

As a member of the ANZAM Executive, I am working to extend ANZAM's reach into Asia and the Middle East. My vision is to provide services to the considerable number of Australian academics working offshore and to international academics and young researchers working in the offshore campuses of Australian universities and in partnership programs. The first major activity that I led was a very successful research and publication colloquium for new and emerging researchers, which was held in Ho Chi Minh City in August 2011. This activity will be repeated in April 2013, again in Vietnam but in collaboration with RMIT University Vietnam and Ho Chi Minh City Open University.

I hope to continue my work in extending the ANZAM offshore outreach and also to contribute to improved delivery of services to regional and remote universities. Greater use of the internet to share the knowledge and experience of our colleagues with a wider audience is the next phase in the continuing development of our Academy.

I look forward to your support.
