[mark.freeman@abdc.edu.au](mailto:mark.freeman@abdc.edu.au)

# Outline

1. Regulatory context ✓
2. Setting learning standards ✓
3. Implementing learning standards ✓
4. Assessing learning standards

## Disciplinary groups

- [Architecture](#)
- [Arts, Social Sciences and Humanities](#)
- [Building and Construction](#)
- [Business, Management and Economics](#)
- [Creative and Performing Arts](#)
- [Education](#)
- [Engineering and ICT](#)
- [Health](#)
- [Law](#)
- [Science](#)

## Sector wide approaches

- [Quality Verification System](#) - Group of Eight initiative. Individual unis publish results (e.g. [USyd](#))
- [Assessment Moderation](#) - Funded by OLT (SP10-1843). Led by K.Krause and G. Scott
- [Assuring graduate capabilities fellowship](#) - Funded by OLT. Held by B. Oliver

# Assessing learning standards

## 1. Perceptions – employers, graduates, professional bodies

eg. AGS/CEQ; professional body accreditation

## 2. Common test – ACER, CLA, AHELO

“many graduates already subjected to skills testing for employment”

## 3. External moderation – UK, Go8, Krause, ABDC-Prof Bodies

“Assessment is largely dependent upon professional judgement and confidence in such judgement requires the establishment of appropriate forums for the development and sharing of standards within and between disciplinary and professional communities” (Tenet 6: Price et al, 2008)

	<b>QVS</b>	<b>Krause-Scott et al</b>	<b>Achievement Mat</b>
<b>Scope</b>	Multiple	Multiple	Accounting
<b>Level</b>	Bachelor	Bachelor	Bach + Mast
<b>HEI grouping</b>	Go8	11 across	Start 10 across
<b>Reviewers</b>	1 academic	1 per discipline partner	2 aca/professionals
<b>Calibrated</b>	No	No	Yes
<b>Data selection</b>	Stratified	Stratified	Randomised
<b>Sample size</b>	5% HD/D/C/P/F	1 HD/D/C/P/F	5
<b>Products</b>	Unit inputs/outputs	Unit inputs & outputs	Limit to thresholds
<b>Intent</b>	Quality assurance (QA)	QA & Quality Enhancement (QE)	QA & QE
<b>Authority</b>	Top-down	Top-down	Ground-up

# ***Achievement Matters Project***

## **Aims**

1. Evidence of accounting academic standards
  - External, double-blind, peer-reviewed
  - Benchmark against national consensus (Bachelor & Master)
  - All HEP types
2. A model process for obtaining and using evidence
  - Assessing inputs & outputs
  - Quality enhancement & assurance
3. Professional learning and capacity building

**Rationale:** Improve, self-regulate, avoid perverse options

Adelaide, Curtin, Deakin, Griffith, Monash, RMIT, Southern Cross,  
Sydney, USQ, UWA, UWS

# ***Achievement Matters - Method***

- **2011-2013**

- Pilot (10 unis) + 4 cycles (expanded participation)
- Pilot refines process (calibration, data collection, home application)

- **Cycle steps**

1. Participating providers nominate 2 peer reviewers ; choose task(s) to evidence national learning standard under focus; implement processes for data collection
  - Outputs: student work (minimum of 5 pieces ) per standard, randomly selected
  - Inputs: diverse tasks
  - All data de-identified and reviewers anonymised
2. Independent data coordinator ensures data and reviewer anonymity

# ***Achievement Matters - Method***

## **Cycle steps 3-10**

3. Reviewers calibrate meaning of 'standards' and task validity
  - consensus moderation via 3 stage activity (pre -, at, post-workshop)
  - 20 peers (+ control group and professional group)
4. Software (SPARK<sup>PLUS</sup>) used to collect & distribute peer reviews
5. Profession evaluates inputs
6. Peers independently evaluate inputs , outputs & process
7. Data aggregated and returned
8. Post review debrief & learning
9. Participating providers implement any changes
10. Disseminate to wider community

# Reaching consensus on assessment task validity

Pre-F2F

F2F

Post-F2F

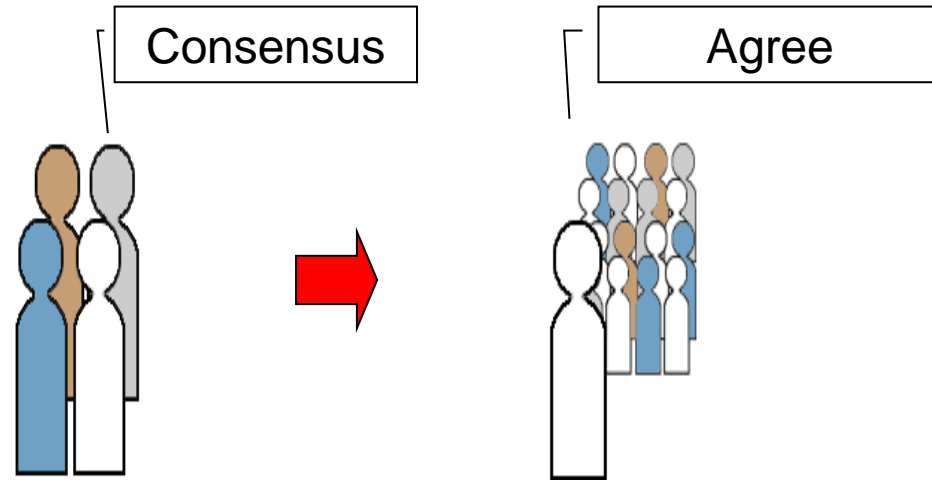

# Calibrating and grading to the standard

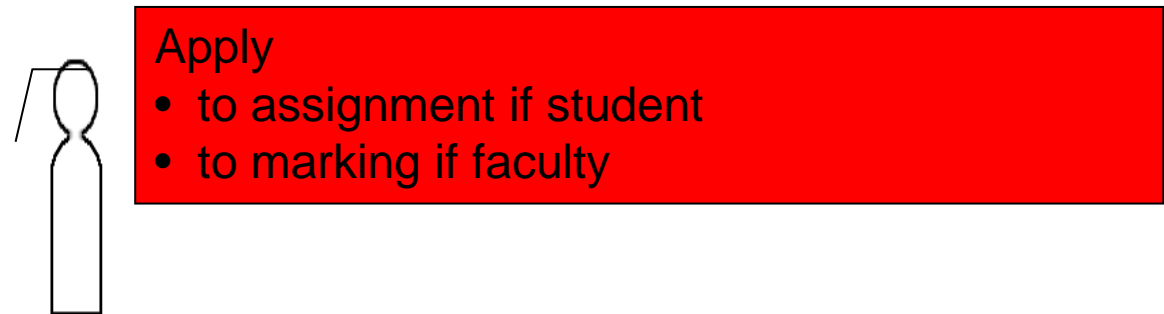

Pre-F2F

F2F

Post-F2F

I'm confident rating  
assessment requirements  
and students' work

# Reviewer confidence pre-F2F

## Multi Assessor Summary

Select Group **All Students** ▾

Rating Scale Division Splits **1** ▾

[Join Categories](#)

[Expand All](#)

### SPECIFICS

1. I am confident rating the capacity of assessment requirements to allow students to demonstrate the national threshold learning outcome for written communication

2. I am confident rating students' written communication ability benchmarked against the national standard

3. I am confident that the my feedback, explaining my ratings and offering suggestions, will be useful to the assessor

# Calibration – task validity

## Individual results pre-workshop

- Min & max (n=26)
- Mean  $\pm 1$  SD

## Group results at workshop

- Small groups (n=5)
- Consensus

# Calibration – UG student 1

## Individual results pre-workshop

- Min & max (n=26)
- Mean  $\pm 1$  SD

## Group results at workshop

- Small groups (n=5)
- Consensus

# Calibration – PG student 1

## Individual results pre-workshop

- Min & max (n=26)
- Mean  $\pm$  1 SD

## Group results at workshop

- Small groups (n=5)
- Consensus

# Confirmation – PG student 5

## Individual results at workshop

- Min & max (n=20)
- Mean  $\pm 1$  SD

## Group results at workshop

- Small groups (n=5)
- Consensus

# Participant feedback

Having to enter my feedback into SPARK caused me to reflect on the reasons for my judgement

I expect this project will help establish national agreement on academic standards between accounting degree providers and with employers

# Impact on academics

Strongly  
Disagree

Strongly  
Agree

Q4: The activity, requiring me to reflect on the students' work in the context of the agreed national academic standards, changed my understanding of academic standards for written communication that might apply locally

# Outline

1. Regulatory context ✓
2. Setting learning standards ✓
3. Implementing learning standards ✓
4. Assessing learning standards ✓
5. Learned
6. Q & A

## Learned

1. Ownership of ground up & joint development
2. Renewed focus on program in curriculum renewal
3. Differentiate niche from others
4. Rethinking assessment (eg. capstone, authentic)
5. Refined language eg. teaching vs learning standards
6. Not an island eg. influence policy; joint custodianship
7. Must harmonise with professional accreditation
8. Biased judgements unless calibrated
9. Collaboration builds capacity around assessment (ie. QE & QA)

😊 ***Thank you***
