Speedcast acquired a large number of companies within the past few years and recently announced a new acquisition.

Main responsibilities:

The Business Analyst will mainly support the global integration of a recent acquisition into Speedcast and will have the opportunity to contribute to other strategic projects once the former is fully under control.

Main responsibilities include:

- Be an integral part of the Project Management Office team, coordinating the global integration of a company recently acquired by Speedcast:
 - Liaise with integration work stream leads on a daily basis and prepare weekly meetings covering work streams' progress in multiple time zones, challenges and next steps
 - Analyse and track synergies and costs savings
 - Build synthetic reports for the Executive Committee review
 - Be responsible for action and risk tracking
 - Support the preparation of Steering Committee meetings, attended by the Executive Committee
 - Support the team on other ad hoc tasks
 - Support work streams to achieve their objectives, as necessary
- Support other strategy projects when the Integration work is fully under control

Requirements:

- Final year of Master's degree
- Excellent interpersonal and communication skills
- Fluent English communication verbally and literally
- Strong project management, analysis and synthesis skills
- Curious, rigorous and adaptable
- Proactive, willing to learn and open to feedback for continuous improvement
- Ability to shift priorities quickly and handle uncertainty, while maintaining a high degree of organization and control
- Ability to problem solve individually or in a group setting

- Good fit with Speedcast values (Customer-focused, Agile & Responsive, Success through people and safety, Team Spirit)
- Good command of PowerPoint and Excel
- Experience of working in English in a multicultural environment is preferred

Reporting line:

Manager, Corporate Strategy

Timeline:

Internship starting early January 2019, for 6 months

Location:

Hong Kong (head office)
