

From Sustainable Business to Regenerative Business

Averting catastrophic environmental disaster and the human consequences thereof

Recent revelations about planetary health, the state of the natural environment and the impact of the natural environment on human health, highlight how urgent it is for all areas of society, including business, to come together in a coordinated effort to not only avert environmental and human catastrophe, but to ensure that both people and planet can flourish moving forward into the second half of this decade.

ECU **Centre for People, Place & Planet (CPPP)** in collaboration with **ANZAM Sustainability and Responsible Management Special Interest Group** invites you to a presentation by **Associate Professor Dave Webb** (University of Western Australia) on the role of business and education in respect to planetary health (environmental health and human health). In his presentation, Associate Professor Dave Webb will argue why it is no longer enough for businesses to be sustainable. Instead, he argues the urgent need for businesses to become regenerative.

Join us for a lively presentation and discussion and learn about what you and your business can do to contribute toward a regenerative future.
